Guided by Truckee River Watershed Council & Olympic Valley Public Services District staff, participants will enjoy witnessing stream & Lahontan Cutthroat Trout habitat in action & hearing about unique groundwater aquifer projects in sensitive meadow habitat in the snow. The tour wouldn't be complete without a look at the planning efforts associated with the controversial Specific Plan for the area! The tour will conclude in the village at Palisades where participants can enjoy a beverage or snack at one or more of the bars & restaurants, or, depending on operations, take a ride on the cable car for some scenic views of Lake Tahoe before heading back to the resort!

## **MW #2: Town of Truckee Planning & Redevelopment Tour**

Former Town Manager Tony Lashbrook will provide insights into the vision that set this plan in motion & the new Town Manager Jennifer Callaway will highlight the creative features being implemented throughout town revitalizing the area. Tour will include a shuttle ride to and from the resort & walking through town. ## **MW #3: Tahoe City Bike Tour**

Tuesday, April 25th | 1:45-4:45pm | \$55

This tour will include an approximately 13-mile (round trip) bike adventure along the Truckee River Bike Trail from the resort to Tahoe City and back! During the ride along the relatively flat trail along Truckee River, participants will enjoy the scenic beauty accompanied by a look at key transportation challenges in the area & a smattering of river & Tahoe facts. In Tahoe City, participants will have the chance to look over historic Fanny Bridge, dip their feet in the lake (if you dare - it's pretty icy in April!), and appreciate the complete reconfiguration of a major intersection of two major highways in the region. On the way back to the resort, participants will have the chance to enjoy a beverage & a light snack at the River Ranch Lodge & Restaurant before biking up the slight hill back to the resort.
